IDAHO MARYLAND TO INSTALL MARCEY MILL

There was a temporary lay-off at the Idaho-Maryland Mines Corporation Thursday afternoon. The mill has been operating to capacity yet they could not take care of all the ore in the bins so the management reduced production until the ore on hand could be taken care of. This of course meant a temporary lay-off in men. Ore from the three properties, the Idaho-Maryland, the old Brunswick, and the New Brunswick is being milled at the Brunswick plant at the rate of 200 tons a day.

A Marcey mill has been sided on the Idaho-Maryland spur track and will be installed as soon as practical. This mill will be able to handle up to 400 tons a day of ore.

Roy Marcelus, who designed the present cyanide and flotation plant is now engaged in additional mill designing for the Idaho-Maryland property.

READY BULLION MINE

Fenton Fleming, who is connected with Weinstock Lubin Company, in Sacramento, was a visitor in his native town, Nevada City, Saturday. Tuesday he made a trip to the Ready Bullion mine, in which he is interested, near Gold Lake. Arnold Brothers, big auto dealers of Sacramento, are among the largest stockholders. H. Webber, engineer for the Guggenheim interests several years ago, has been employed by the new company.

The owners have installed a ball mill, flotation units and concentration tables and are now waiting for Westinghouse generators. A Deisel engine will generate the power.

The shaft on the property is down 480 feet with stations cut on the 100, 200, 300 and 400 foot levels. There are fully 10,000 tons of ore in the stopes and between 5,000 and 6,000 tons on the dump, mined and ready for milling. Several strong ledges averaging from one to fifteen feet run through the property. Tests taken on these ledges assay $17 per ton.

Mr. Fleming stated the property would be ready to start operation about September 15. There is about enough ore mined to keep them employed for some time. Thirty-five men are employed at the property.

The Edgehill Mining Company, which has taken over three Sierra county mining properties under lease and bond, is milling 40 tons of ore per day at the Hughes mine near Downieville, and a crew is busily engaged stoping ore.

The company took over the Sacred Mound and the Butte Saddle properties near Sierra City, several weeks ago, and have made rapid progress in getting them in shape for production. On Saturday milling of ore started at the Sacred Mound in their ten stamp mill.

The company is using a Holt tractor for power and is to install a Deisel engine as soon as possible. A contract was let a few days ago to drive a 500 foot tunnel from the Butte Saddle toward the Sacred Mound. The company expects to open several ore shoots between the Sacred Mound and Butte Saddle shafts. A program of development is under way for the Butte Saddle but as yet it is not fully determined.

Prominent people of the southland are interested in the properties and are Mrs. H. A. Derby, of Pasadena: A. L. Damon and H. B. Leavett, of Los Angeles M. E Pope is superintendent of the properties.

The Sacred Mound and Butte Saddle properties were taken over from Mrs. Richard Phelan, of Nevada City recently and have a splendid past record.

Kjorlie in co-operation with Miss Maude Murchie, of the State Department of Education. It will be possible for the Nevada City high school to receive state and federal aid for this department. The need for manual training, cooking sewing and such courses aside from the purely academic has been felt for a long time and this home making course will be greeted with a great deal of approval by students and parents.

Mr. Kjorlie's office has been completely renovated. The large room has been partitioned so that there is now a reception room and Mr. Kjorlie's office.

Teachers added to the Nevada City high school faculty since last year are: Miss Olive Kreutz, B. A., University of California, who will teach Latin, Spanish and girls' physical education. Miss Nellie Baggley, B. A. will teach the commercial subjects and Mr. H. C. Hobbie, M. A. Stanford University, will have charge of the science and mathamatics subjects.

Carlson reports that there are 348 enrolled in the grammar school, 50 more than on the opening day last year, 50 beginners are registered and a number more are expected within the next few days. In anticipation of a heavy enrollment an extra teacher has been employed in the primary department, Miss Lois E. Shaw.

CAMPTONVILLE, Aug. 26.—The Pendola Saw Mill, owned and operated by Frank Pendola, located 3 miles west of here, was completely destroyed by fire at five o'clock Saturday morning, destroying the mill plant and lumber yard. THE NEW MUNICIPAL POOL

Let the chronic kicker, the confirmed grouch, the groaning dyspeptic, the pessimist, the seedy tightwad, the community Jonah, and all such and sundry, if any there be in Nevada City, walk out to the new municipal park on a Saturday afternoon, pause by the new municipal swimming pool—stop, listen and look. They should come away chastened and wiser and years younger.

Laughter, splashing, diving, swimming, bronze arms, legs, torsos, shining faces, strong muscles. Our children turned fish. Scores, hundreds of them bursting into the water with a rush and a glad cry.

It's a splendid improvement in which the entire city and rural districts around can take pride and pleasure.

The next thing PROGRESSIVE Nevada City should tackle is better schools. A while ago a large number of tax payers signed a petition and handed it to the school board. The school board to date has not said one public word to the signers of that petition. Some kind of statement is due the petitioners.

Since we did finally, at long last, get a swimming pool for Nevada City's youth, there is surely hope that in time we will have school improvements which, if anything, are more important.

God help us to think more of our children and less of our dollars.

GORDON BETTLES MOTHER CELEBRATES 79 BIRTHDAY

There was a very happy family celebration at the Bettles home on Sunday, the occasion being the 79th birthday of Mrs. A. J. Bettles, the mother of Mr. Gordon Bettles. Besides the good wishes of the family, a number of friends dropped in to offer their felicitations. Mrs. Bettles, who is a great lover of flowers, received some lovely birthday bouquets.

Mrs. Mardel Cathcart, of San Francisco, came up several days ago to be present for the eighth birthday of her little daughter, Jeanne, who enjoyed a birthday cake on that day. Mrs. Cathcart is also spending the week here with her parents, Mr. and Mrs. C. G. Sweeney.

TELEPHONE *is helping this farmer to make money*

A COAST FARMER was in the habit of putting his hogs in the trailer and regularly driving eight miles to town with them. If unsuccessful in getting his price at the local markets he would cart the hogs home again.

He was urged to install a telephone and call the local markets first. This he did. The saving in oil, gas, wear and tear and pork poundage was soon found to be far greater than the small cost of telephone service.

Now that farmer has more time and his telephone is there, handy for other matters too.
